Report on review of interim condensed consolidated financial information

To the board of directors of Tamdeen Real Estate Company – KPSC Kuwait

Introduction

We have reviewed the accompanying interim condensed consolidated statement of financial position of Tamdeen Real Estate Company (Kuwaiti Public Shareholding Company) (the "Parent Company") and its Subsidiaries (collectively the "Group") as of 30 June 2017 and the related interim condensed consolidated statements of profit or loss, profit or loss and other comprehensive income, changes in equity and cash flows for the six-month period then ended. Management is responsible for the preparation and presentation of this interim condensed consolidated financial information in accordance with International Accounting Standard 34, "Interim Financial Reporting". Our responsibility is to express a conclusion on this interim condensed consolidated financial information based on our review.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity." A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial information is not prepared, in all material respects, in accordance with International Accounting Standard 34, "Interim Financial Reporting".

Report on review of other legal and regulatory requirements

Based on our review, the interim condensed consolidated financial information is in agreement with the books of the Parent Company. We further report that, to the best of our knowledge and belief, no violations of the Companies Law No. 1 of 2016 and its Executive Regulations, or of the Memorandum of Incorporation and Articles of Association of the Parent Company, as amended, have occurred during the sixmonth period ended 30 June 2017 that might have had a material effect on the business or financial position of the Parent Company.

^{*} It was not possible to reliably measure the fair value of available for sale investments amounting to KD6,125 thousand (31 December 2016: KD6,572 thousand and 30 June 2016: KD6,972 thousand) due to non availability of reliable method that could be used to determine the fair value of such investments, accordingly, these were stated at cost less impairment, if any. Management is not aware of any circumstances that would indicate any impairment/further impairment, in the value of these investments as of the reporting date.

19.2 Fair value measurement

Fair value represents the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Investments at fair value through profit or loss and available for sale investments (excluding certain available for sale investments which are carried at cost/cost less impairment for reasons specified in note 19.1 to the interim condensed consolidated financial information) are carried at fair value and measurement details are disclosed in note 19.3 to the interim condensed consolidated financial information. In the opinion of the Group's management, the carrying amounts of all other financial assets and liabilities which are at amortised costs are considered a reasonable approximation of their fair values.

19.3 Fair value hierarchy for financial instruments measured at fair value

The following table presents the financial assets which are measured at fair value in the interim condensed consolidated statement of financial position in accordance with the fair value hierarchy.

This hierarchy groups financial assets into three levels based on the significance of inputs used in measuring the fair value of the financial assets. The fair value hierarchy has the following levels:

- Level 1: quoted prices (unadjusted) in active markets for identical assets.
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the assets, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the assets that are not based on observable market data (unobservable inputs).

The level within which the financial assets are classified is determined based on the lowest level of significant inputs which lead to the fair value measurement.

The financial assets measured at fair value in the interim condensed consolidated statement of financial position according to the fair value hierarchy are as follows:
